Background

The Commonwealth is a voluntary association of 54 independent and equal sovereign states and home to 2.4 billion people. The Commonwealth Secretariat is an independent organisation working with the 54 member countries and assists them together to promote prosperity, democracy and peace, amplify the voice of small states, and protect the environment.

The Commonwealth Secretariat’s Trade, Ocean and Natural Resources Directorate assists its member countries to sustainably manage their natural resources, in the ocean and on land, for the benefit of present and future generations. The Secretariat provides technical assistance and support member countries in the development of policies, laws, design of fiscal regimes and strengthening national institutions as they seek to implement the Sustainable Development Goals.

The Commonwealth Blue Charter is an agreement by Commonwealth countries to cooperate in actively addressing the myriad of ocean-related issues and commitments that they face. Blue ecosystems are being degraded and destroyed at an unprecedented rate and this is not an issue any single country can solve alone.
In April 2018, the Commonwealth Blue Charter was adopted by member countries, to guide cooperative action on ocean issues. Commonwealth Blue Charter Action Groups are member-driven, led by Commonwealth Blue Charter ‘Champion’ countries.

The Commonwealth Blue Charter works through a set of Action Groups, each devoted to a particular ocean issue. Action Groups are driven by member countries, led by ‘Champion’ countries. So far 16 countries have stepped forward to be Champions on 10 topics:

- Commonwealth Clean Ocean Alliance
- Coral Reef Protection and Restoration
- Mangrove Ecosystems and Livelihoods
- Marine Protected Areas
- Ocean Acidification
- Ocean and Climate Change
- Ocean Observation
- Sustainable Aquaculture
- Sustainable Blue Economy
- Sustainable Coastal Fisheries.

These 10 Action Groups have been setting priorities and developing their individual Plans of Action that reflect their regional needs and resource requirements.
