Intergenerational Dialogue: Youth Voices for Sustainable Oceans and Energy

Thursday 10 November 2022 | 1600–1655 local time | Moana Blue Pacific Pavilion

Join the Commonwealth Secretariat for an intergenerational open dialogue on climate change, ocean and energy action between young leaders, high-level representatives of governments, international organisations and civil society from across the Commonwealth.

In conversation with the Secretary-General of the Commonwealth, leaders will share key projects, research, issues, concerns and needs relating to the Climate Ocean Nexus and Sustainable Energy Transition. They will exchange ideas and solutions to the challenges identified by the Action Groups of the Commonwealth Blue Charter and Commonwealth Sustainable Energy Transition (CSET), including opportunities for promoting youth inclusion.

The event will be held face-to-face in the COP27 Blue Zone, and will be recorded.
