

The Commonwealth

COP27 Side Event

Capacity Building: Energy Literacy to Power a Greener Future

Saturday 12 November 2022, 1630 – 1730 (EET), SEforALL Pavilion, Sharm El-Sheikh Convention Center

Commonwealth member countries are working together to promote energy literacy as an important tool for achieving a just and inclusive energy transition. Under the **Commonwealth Sustainable Energy Transition (CSET) Agenda**, members of the Energy Literacy Action Group share best practices and participate in joint initiatives aimed at increasing energy literacy, especially among children, youth and local communities and raise awareness of societal changes required to support a just and inclusive energy transition.

This event will:

- Discuss approaches to mainstreaming energy literacy
- Explore the role of STEM education and storytelling in energy literacy
- Spotlight examples from the Commonwealth and youth-led initiatives
- Identify opportunities for international cooperation to promote energy literacy

Speakers
