At the Commonwealth Heads of Government Meeting 2022, leaders declared 2023 a year dedicated to youth-led action for sustainable and inclusive development. Year of Youth was officially launched in January under the theme Youth as co-creators of peaceful and sustainable Commonwealth futures.

The Commonwealth Year of Youth’s mission will be achieved by accomplishing the following aims:

1. Energise development partners to participate in youth empowerment activities.
2. Empower young people to lead and work with others to meet the SDGs.
3. Envision a new Commonwealth that reflects the views and aspirations of young people.
4. Engage development partners to increase investment in creating an enabling environment for youth empowerment.

Please use this toolkit to spread the word about #YearofYouth
WHY IS THE YEAR OF YOUTH IMPORTANT?

The Year of Youth is all about recognising the vital role that young people play in shaping the future of our world.

It's a time when young changemakers, civil society and governments come together to support and empower young people through a variety of initiatives.

In 2023, the Year of Youth will be extra special, with two main events taking centre stage: the Commonwealth Youth Games and the Commonwealth Youth Awards.

These events are an opportunity for young people from around the world to come together, compete, celebrate their achievements, and inspire each other to make a positive impact in their communities and beyond.
