Financing Recovery and Achieving Debt Sustainability in a Post-Pandemic Period

Financing the Gap: Solutions for Long-Term Recovery

Thursday 2 September 2021, 1300 – 1500hrs (BST)

Recovering from the pandemic and achieving sustainable development milestones have resulted in large financing gaps globally. With limited access to concessional financing and recovering domestic markets, many countries are expected to experience difficulties implementing approved funding strategies and may be forced to reprioritise aspects of their pre-pandemic development agenda in favour of post crisis recovery.

Our distinguished panel in this session will be providing participants with additional insight into some of the financing solutions available to Commonwealth member states on their road to recovery and financing their sustainable development goals.

Speakers

Dr Hyginus ‘Gene’ Leon (Keynote)
President, Caribbean Development Bank

Dr Alvaro Lario
Associate VP, CFO & Chief Controller, UN IFAD

Dr Paola Subacchi
Professor & Advisory Board Chair, Global Policy Inst, QMU, London

John Rolle
Governor, Central Bank of The Bahamas

Matthew Martin (Moderator)
Director, Development Finance International

Pamella McLaren
Adviser and Head, DMU, The Commonwealth Secretariat
